

Employees Activity Organization  
Representatives Meeting  
February 16, 2022                      Conference Room 4

EAO Representatives in attendance:

Rick Fowles  
Helen Erickson  
Casey Draper  
Trevor Johnson  
Carl Watson

**Convened at:** 10 a.m.

**Minute Approval:**

Rick Fowles made a motion to approve the minutes for January 19, 2022; Trevor Johnson seconded the motion. The minutes were approved as distributed.

**Summer Party Ideas**

There has not been a lot of feedback from employees as to their preference for Summer Party activities. Options discussed were the splash park or Young Living. Rick Fowles reported that Seth McPherson is in contact with Young Living and they have improved and updated their venue with various activities.

The discussion continued with the possibility of moving the Summer Party to later in the summer or early fall. This will help with the congestion since summer is so busy for all employees. Because of staffing issues that the caterers are having, the possibility of contacting food trucks to provide lunch was discussed as a possibility.

Further discussion on this issue will need to wait until Seth McPherson can attend the meeting and give his report.

**Lump Coal**

Rick Fowles has been informed by the mine that they will no longer provide lump coal, it is too costly for them to make it available. He requested that if they ever start providing lump coal to please put IPSC at the front of the list; they said they would.

**EAO/IPSC Glove Sales or Donations**

There are several gloves that are available through the IPSC/EAO Glove Reimbursement Program that have not moved for several years. Rick Fowles suggested donating them to get them out of the Warehouse. Casey Draper said he will take some of them for drawings in the VOLTS program, and it was agreed the rest will be donated.

### **Snow Cone Machine**

Rick Fowles reported that the snow cone machine is not producing as it used to because the ice melts inside the machine. The decision was made to put it in the salvage program and the EAO will purchase a new one if the organization decides to start having Snow Cone Days again.

### **Miscellaneous**

Carl Watson reported that he has started the process of getting the Scholarship Award applications available. The applications will be due back on April 15, 2022.

Since most EAO Representatives were unable to attend this meeting because of prior commitments Helen Erickson will send out a draft of these minutes for their information and feedback of the issues discussed if any.

Kevin Miller wanted to bring to the meeting the possibility of having a product called 'LifeVac Home Kit' to see if the EAO would be interested in making it available for purchase at the front desk. This is a kit that is a non-powered, non-invasive, airway clearance device developed for resuscitating a victim, especially small children in a choking emergency. After much discussion it was decided to not have it available at the front desk.

***Casey Draper made a motion to close the meeting and move next month's meeting to March 1. Carl Watson second the motion. The motion carried.***

The next meeting is scheduled for March 1, 2022.
