Summer Party

Discussion included final preparations for the 2023 Company Summer Party that will be held in Nephi, June 24.

- The IPSC banners will be set up at the park.
- The tubs will be set out with pop and water.
- Food will be picked up that morning from Sam's Club.
- All ice will be provided by Paradise Ice in one of their freezer trucks. Any leftover ice, water and pop will be turned over to IPSC to utilize.
- Garbage bins will need to be brought and made available along with garbage bags. Kolyer Andersen has access to a dumpster that can be filled.
- Games will include: two Crossnet games, three Cornhole games, Bingo, and Tyler Finlinson will bring his 9 Square game.
- Water bottles filled with candy, chap stick, and sunscreen will be handed out to each family.

The EAO will donate money to the Nephi High Drill Team who will be helping with food and running games.

An idea was put forward to purchase two popups for shade then enter them in the monthly drawings, or use them in some other giveaway; maybe at the Christmas Party.

Parade Floats

This year's IPSC float has been entered in the Hinkley, Nephi, Delta, Fillmore, and Oak City parades.

Discussion continued on how best to distribute the candy among all the parades and reminding employees that the company needs help with safety and distributing candy. Helen Erickson will send out an e-mail reminding employees that help with the float at all of these parades is needed and appreciated.

Clothing Inventory

New tee shirts and hats have been purchased and are available at the front desk.

Discount Lagoon Tickets

Rick Fowles stated that the IPSC discount for Lagoon tickets is available, and he has sent an e-mail with the new code.

Miscellaneous

At this time, the EAO discussed what to do for those employees who are unable to attend the Company Summer Party.

After some discussion, the decision was made to provide lunch when they are on shift that will be brought in by a vendor.

Dustin Peay made a motion to close the meeting. James Dean second the motion. The motion carried.
